This is an office action for serial number 10/038,031.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 36 and 37 are rejected under 35 U.S.C. 102(b) as being anticipated by Dodgen et al. (Dodgen) 3,658,376. Dodgen discloses a method of supporting a camper comprising a support framework, a plurality of support wheels (92 and 94), rolling the framework under the camper (20), lowering the camper on the support frame, and a support wheel lock mechanism (68, 52, 70).

Allowable Subject Matter

Claims 1-35 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art does not disclose a plurality of support wheels under a bias force relative to the support framework such that the bias force between the support wheels and the support framework is sufficient to support the support

framework when the support framework is not loaded, and the bias force is exceeded by a predetermined weight of a camper placed on the camper support surface of the support framework such that the predetermined weight of the camper is supported by the at least three legs on a ground surface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.
